Dear FCC:

I only get 458.00 Social Security a month.I worked all my life and was a RN.I made the money but SS kept turning me down even though I could not work.I have to have my Tracfone wireless phone and can't afford these raises.It seems no one in government cares about the people who worked hard for a living and now have nothing.Please when the decision is made remember people like me.Thank you.Juanit Brown

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
